MEMNUN

An aerial photograph of a dense, vibrant green forest. A dark, winding river or stream flows through the center of the forest, creating a meandering path. The trees are thick and cover the entire landscape. The overall scene is bright and natural, emphasizing environmental friendliness.

NATURE FRIENDLY PRODUCTION FOR YOUR FABRICS.

ABOUT US.

WE NEVER GAVE UP FROM OUR VALUES THAT MAKE US.

Sustainable service is the motto of Memnun Machine, which means our business doesn't end after selling the product, we give service to our customers as long as they need. Our goal is to make our customers and business associates satisfied.

Memnun Machine has a good place in the sector with products sold to worldwide.

DYEING.

MORE PRODUCTION,
LESS WATER CONSUMPTION.

HIGH TEMPERATURE JIGGER

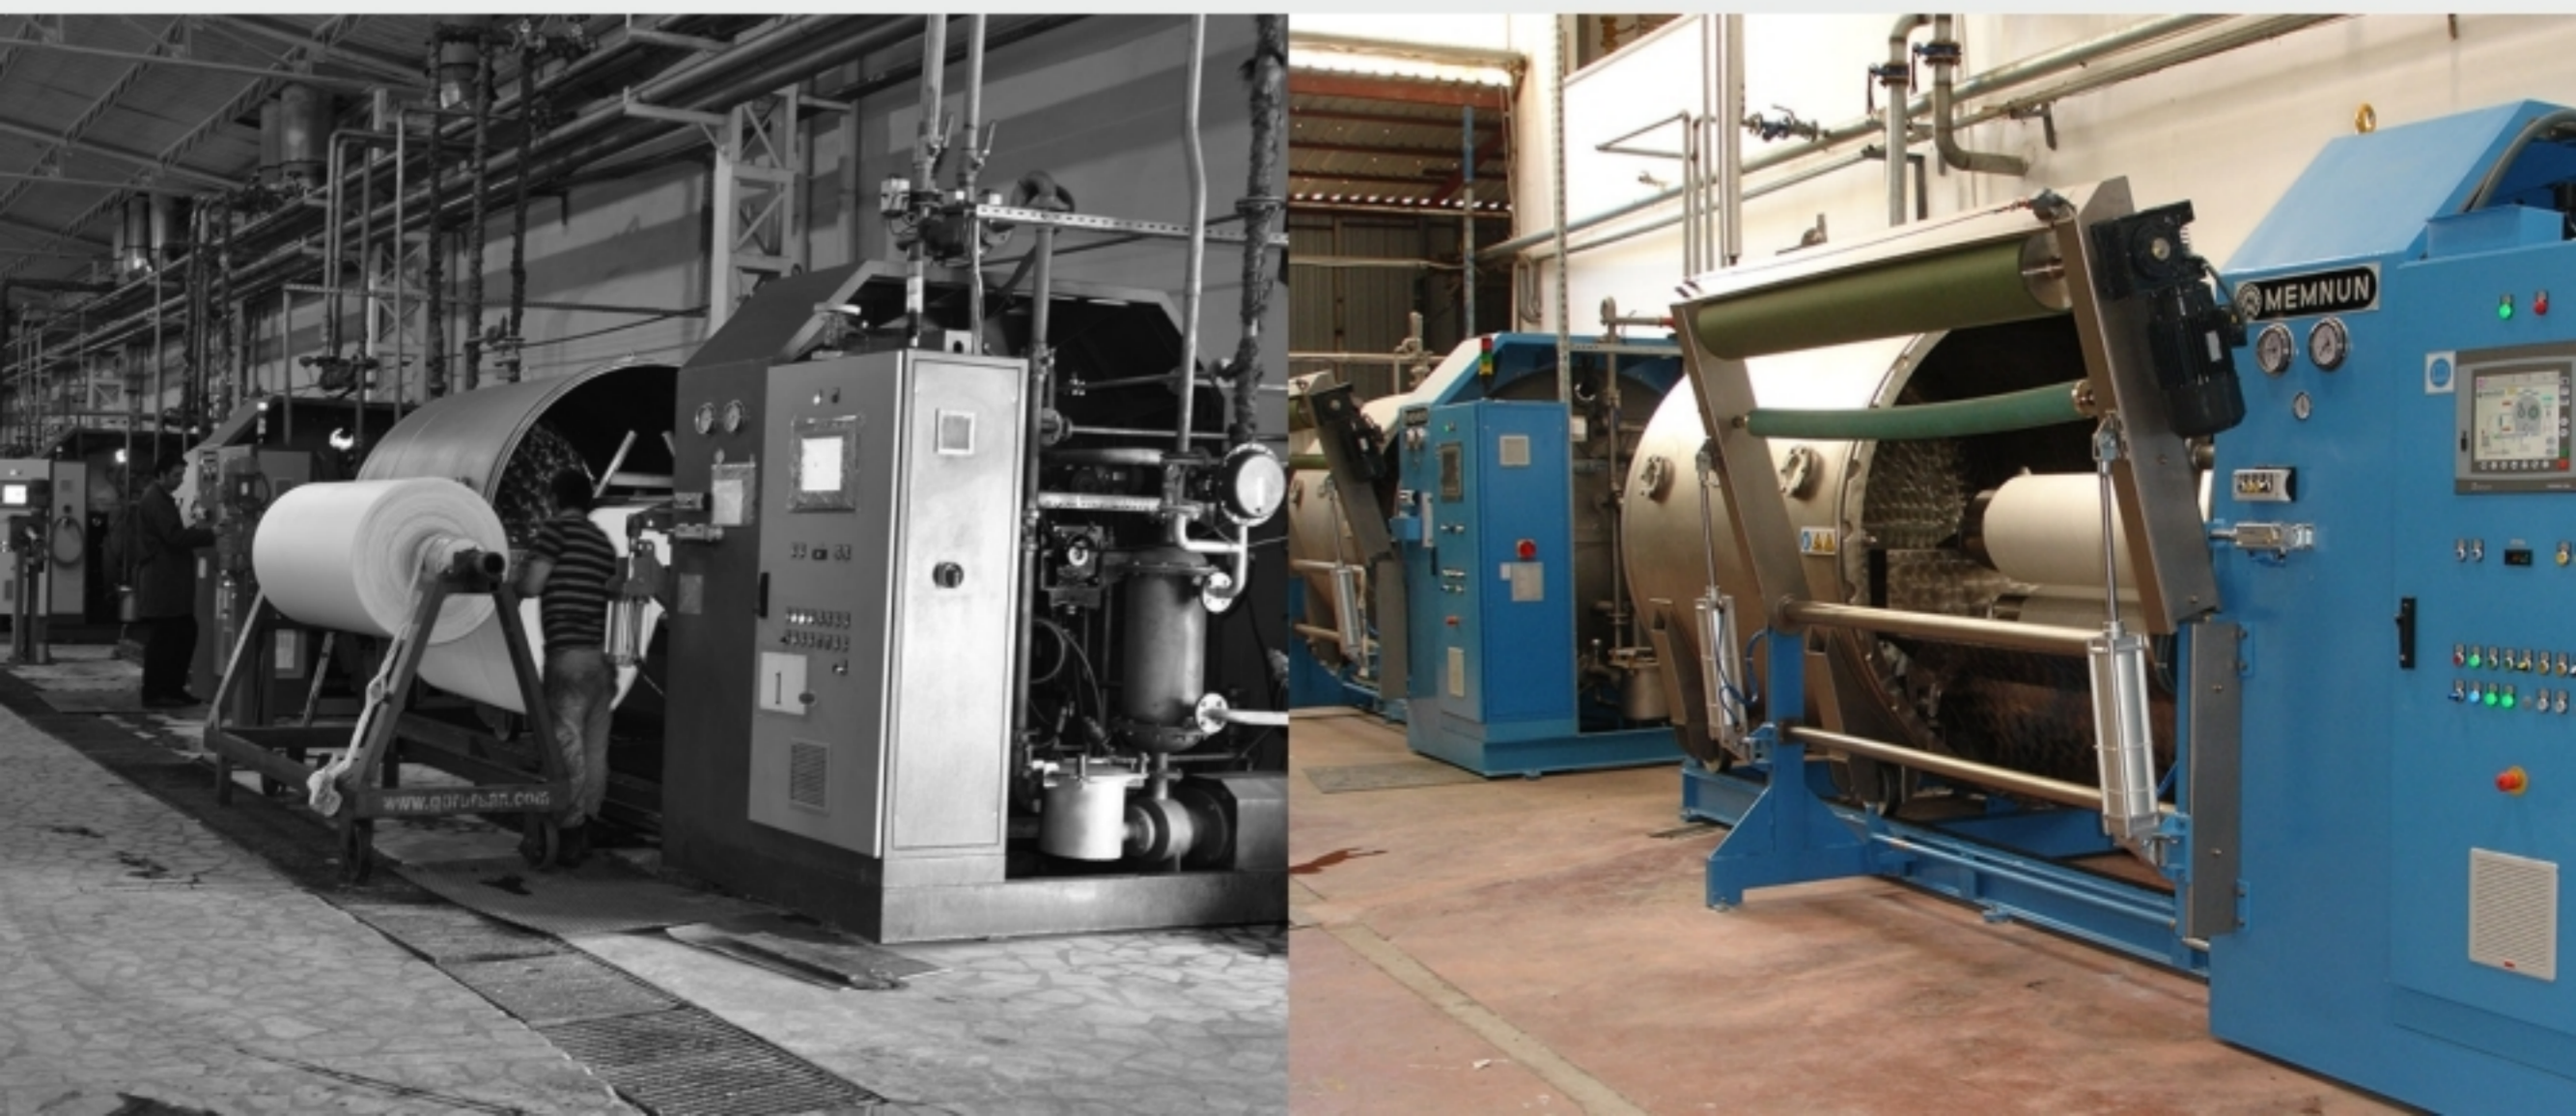

For more
information

Constant speed and constant tension throughout the whole process

- Polyester and mix, Nylon, Viscose and Cotton Fabrics are dyeing with constant speed by keeping constant tension by low water consumption.

In addition to dyeing, all pre-finishing operations such as bleaching, washing, desizing, scouring can be done.

ATMOSPHERIC JIGGER

For more
information

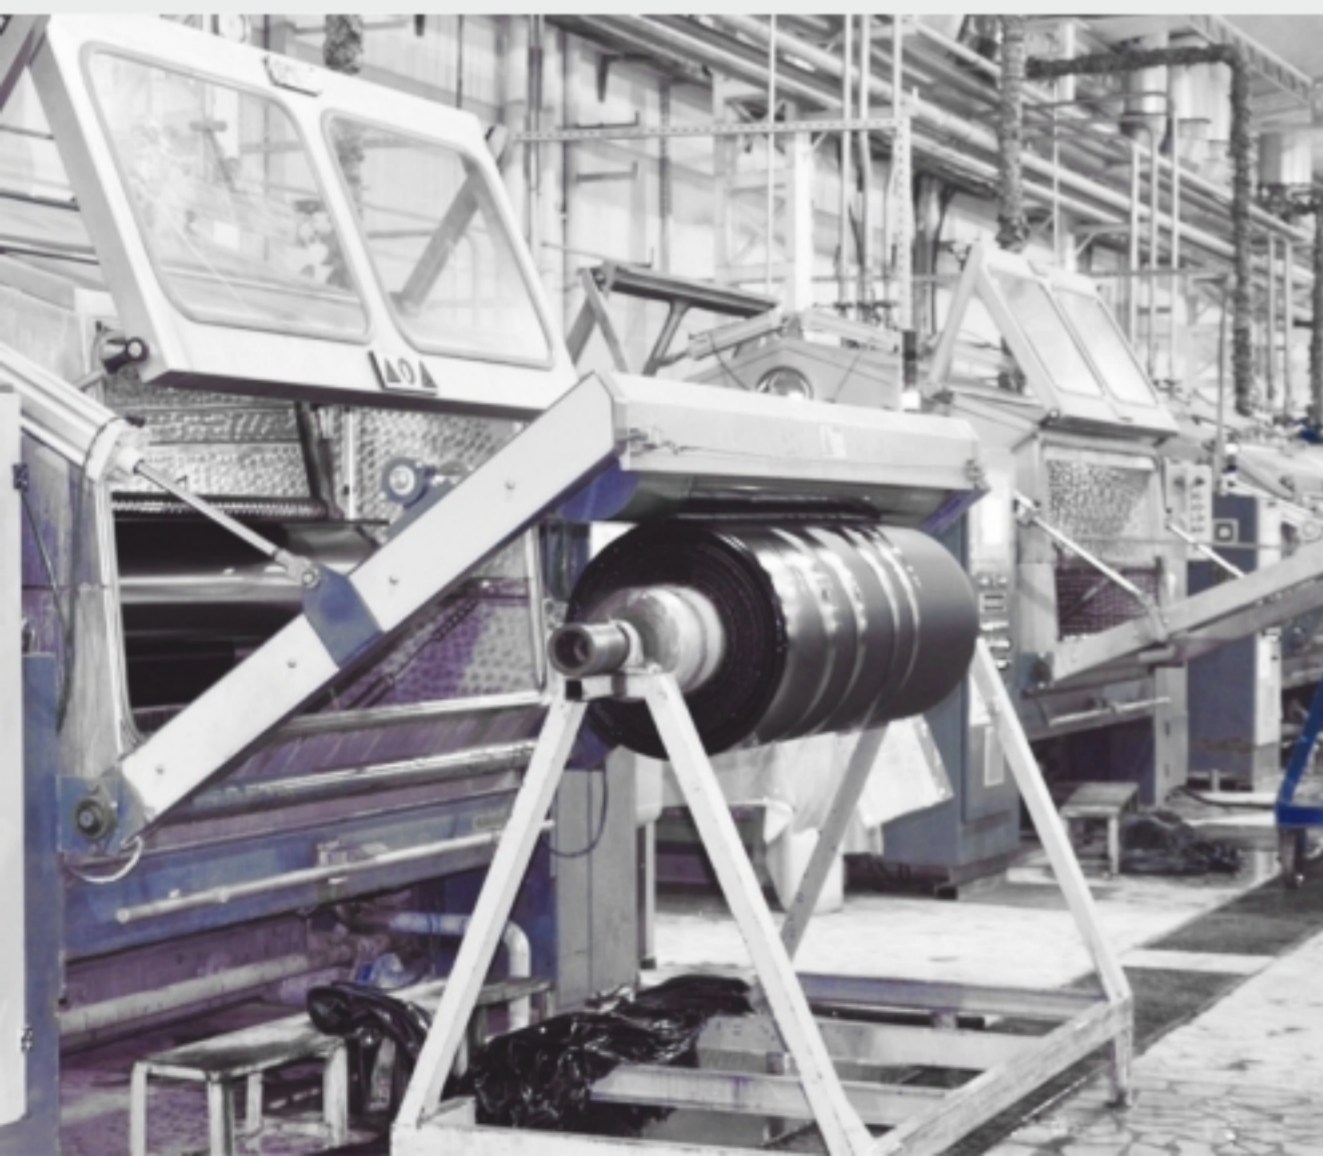

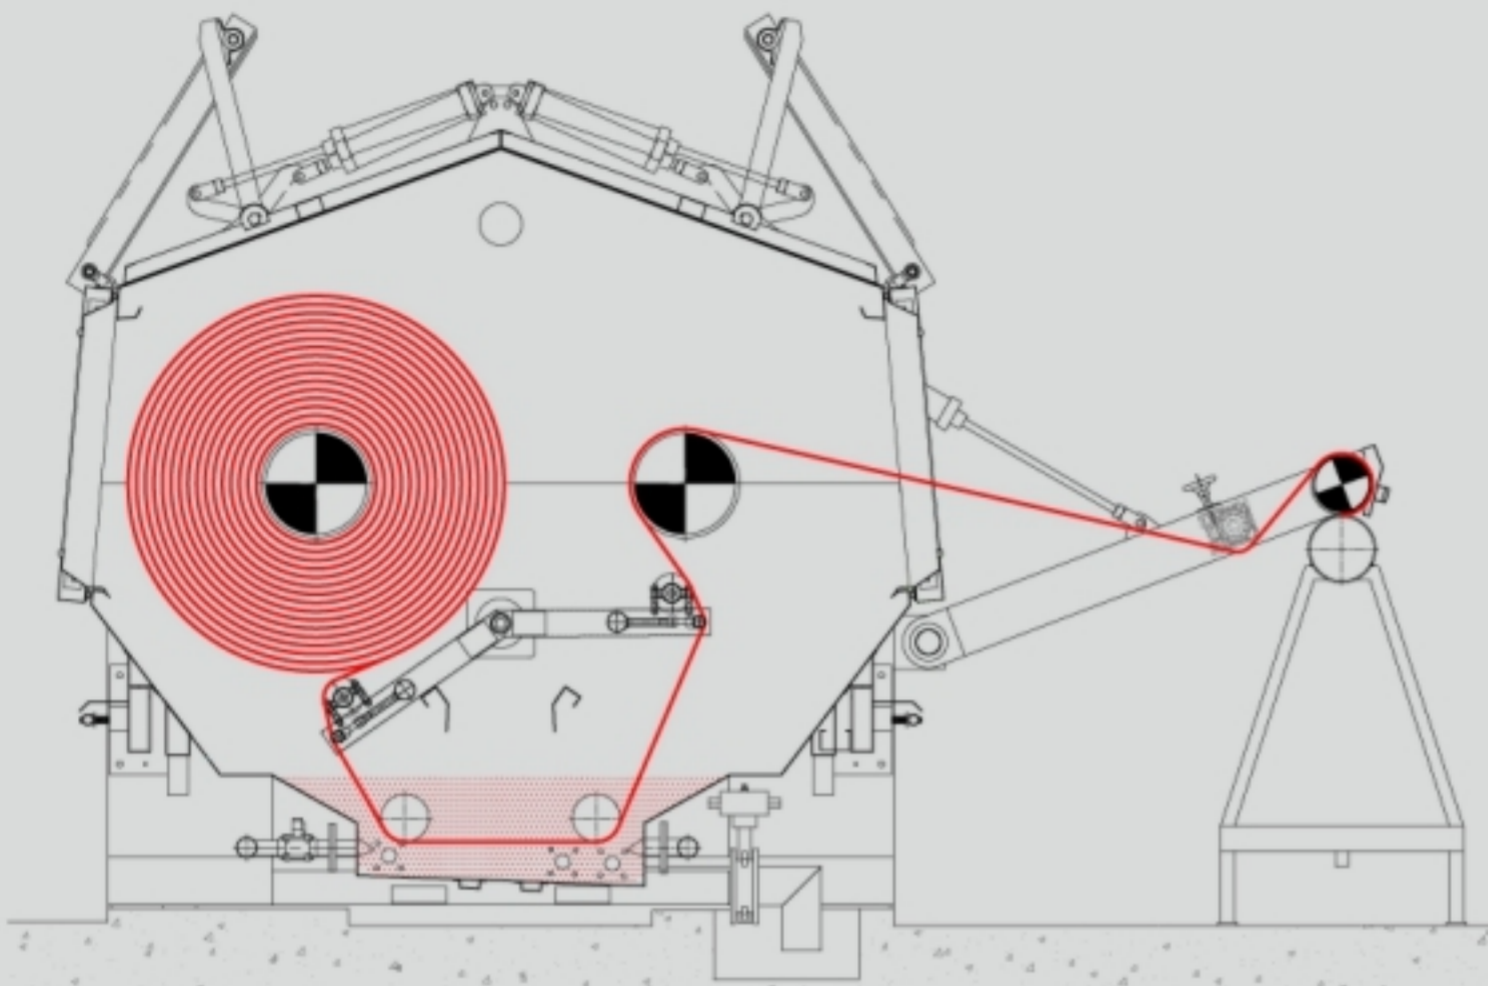

Dyeing and more!

- desizing
- scouring
- bleaching
- dyeing
- washing

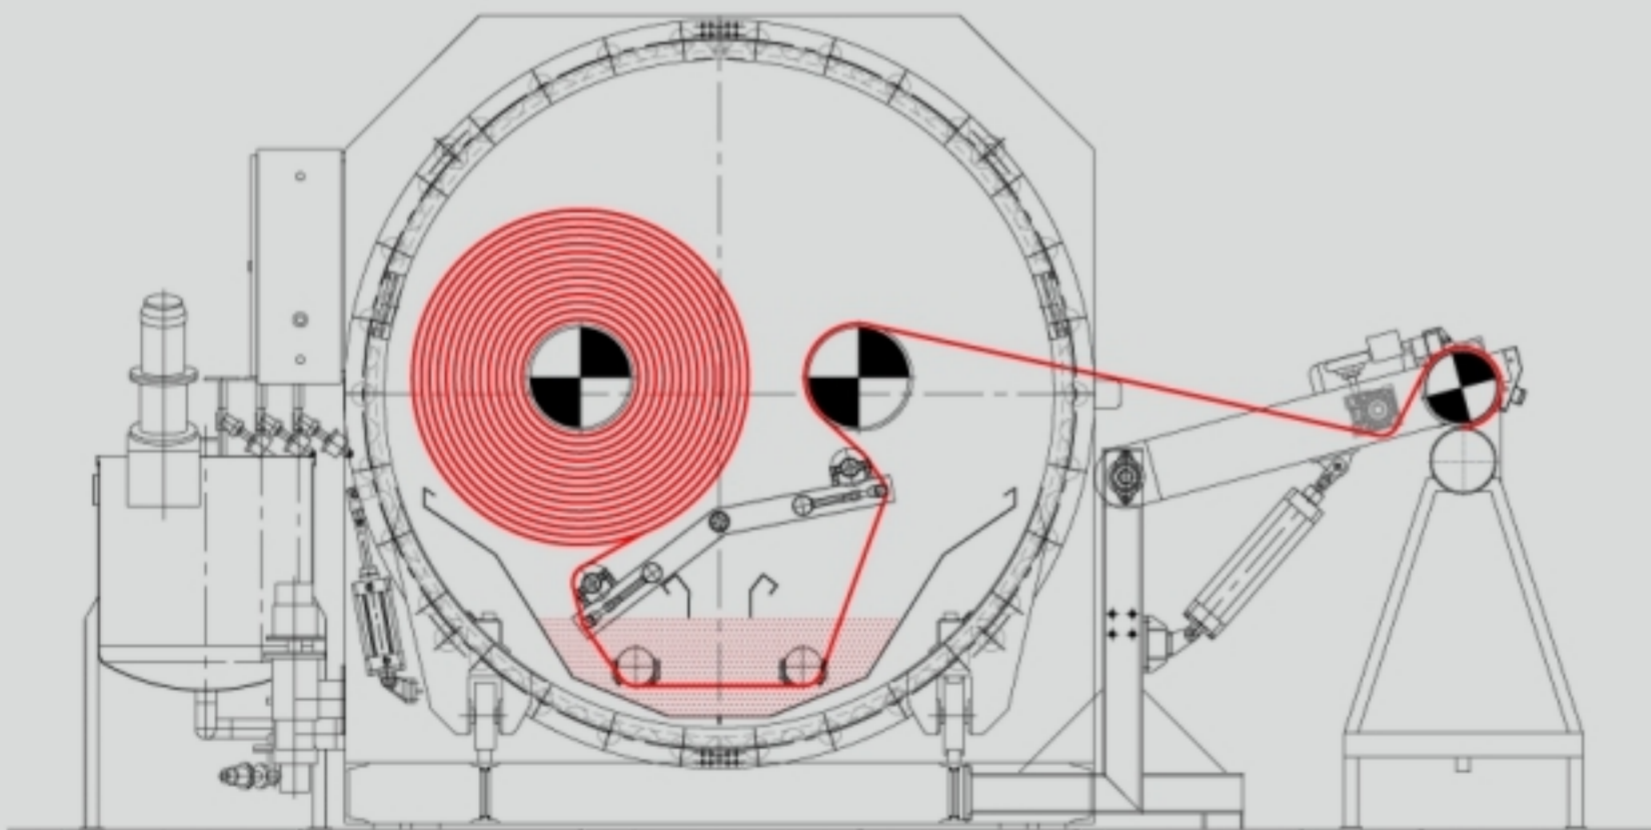

Provides to dye Nylon, Viscose, Cotton and its blends with low water consumption, constant tension and constant speed with reaching 98°C temperature.

In addition to dyeing, it is possible to perform all pre-finishing processes such as desizing, scouring, bleaching, washing in the jigger.

ATMOSPHERIC JIGGER FABRIC PROCESSING

FINISHING.

MORE PRODUCTION,
MORE PERFECT EFFECTS.

RAISING

For more
information

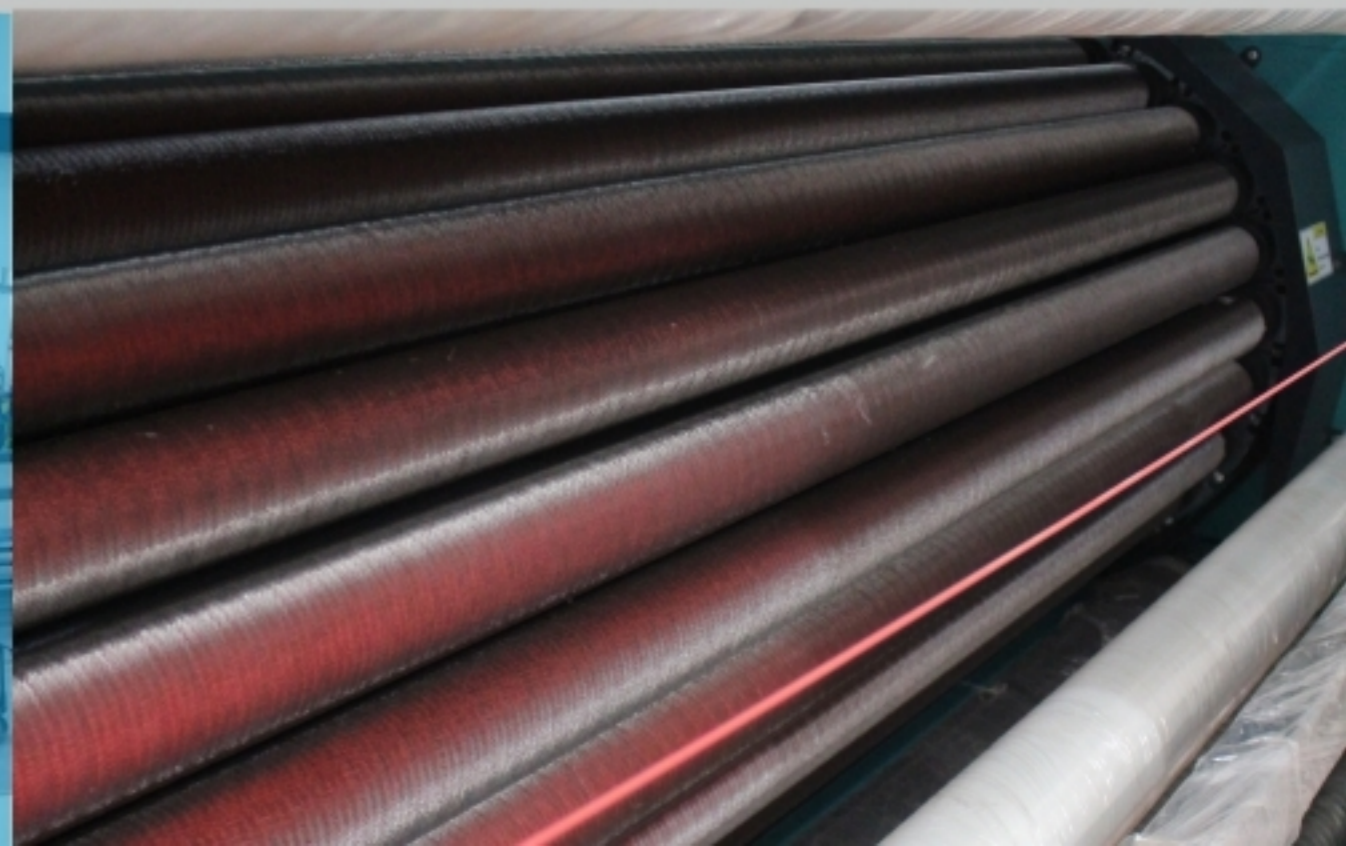

Effect is our
profession!

- Suitable for processing all type of fabrics made from synthetic or natural fibre.
- Suitable for open width and tubular fabrics.
- Pile and Counterpile rollers speed can be adjusted individually.

- **Continuous Raising Lines** with different combinations.
 - 24 or 28 rollers
 - Single or double drum
 - Tandem lines

Raising
Line

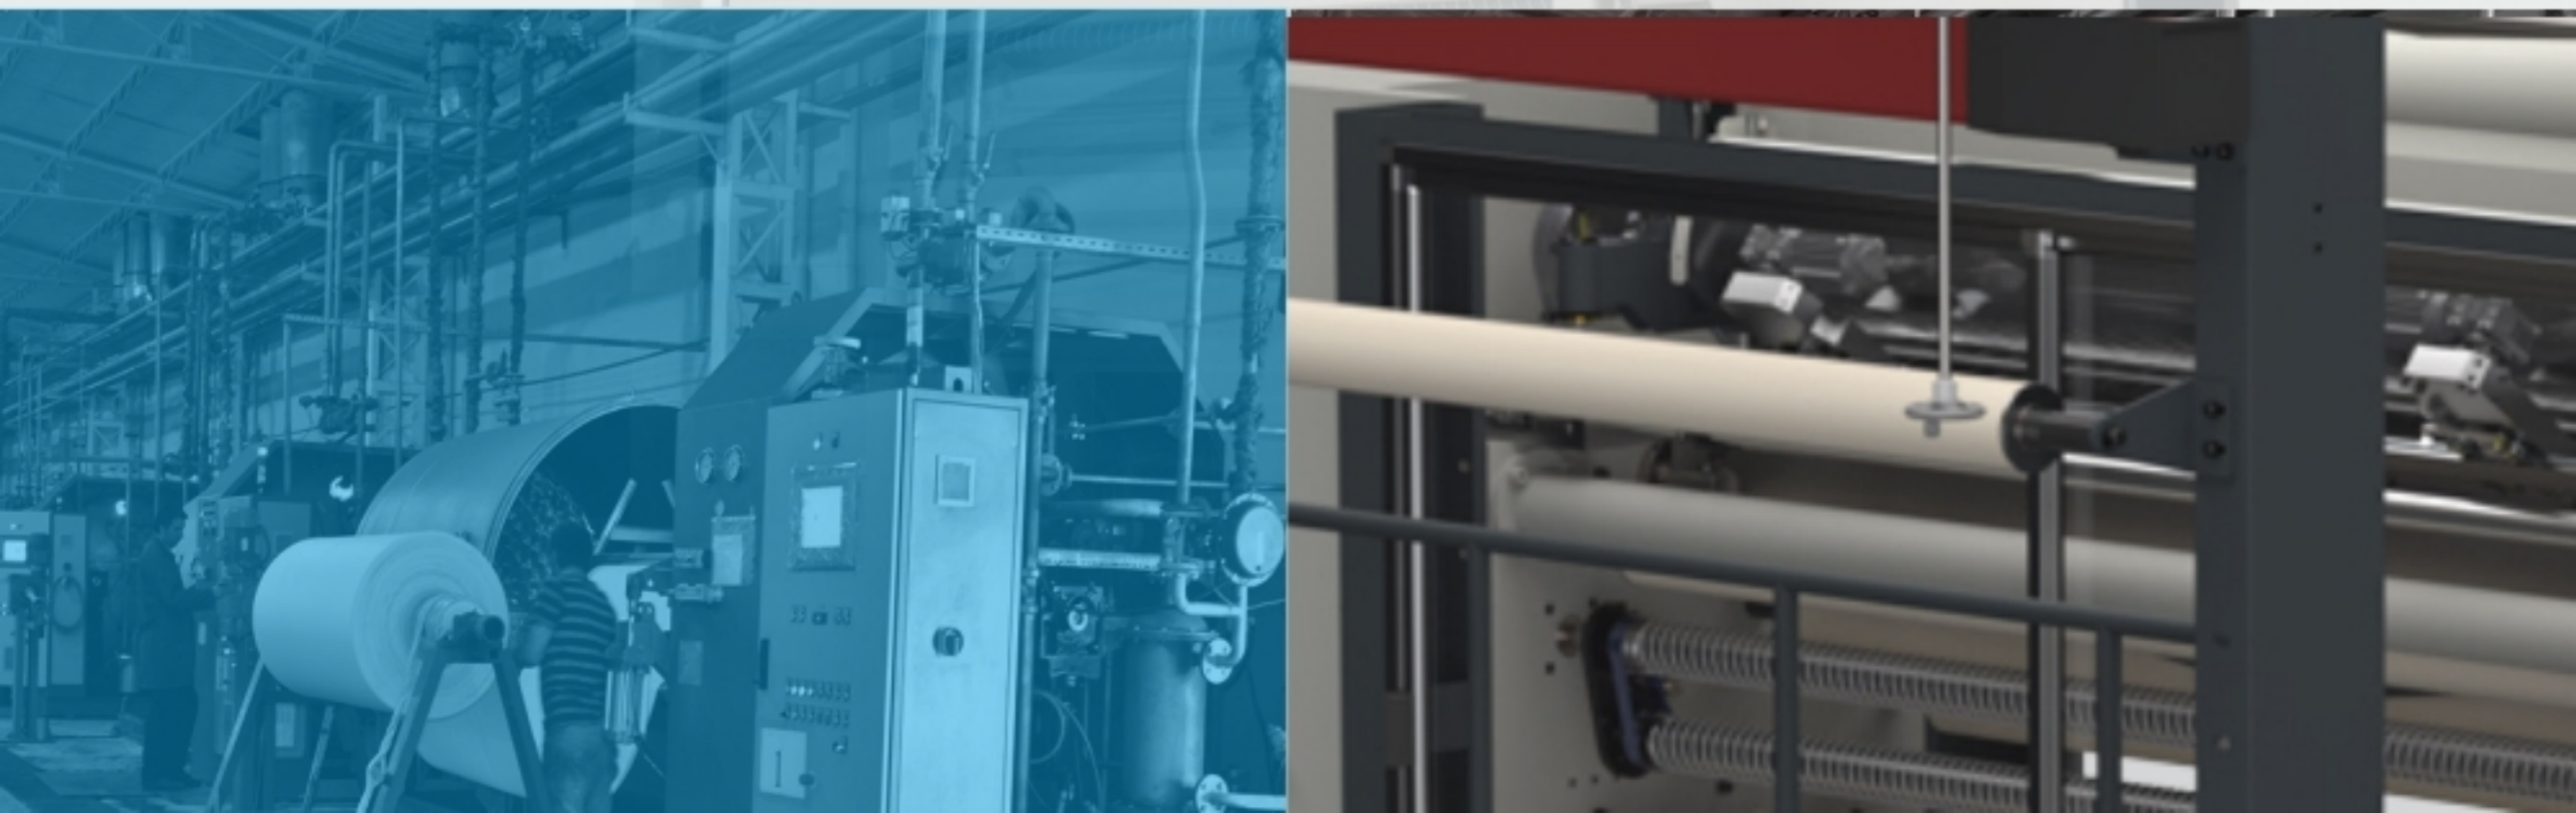

SHEARING

For more
information

Shearing solutions for your fabrics!

The toughest fibers can be sheared easily.
High speed without losing quality.
Possibility of shearing the shortest and finest fibers.

COMBING

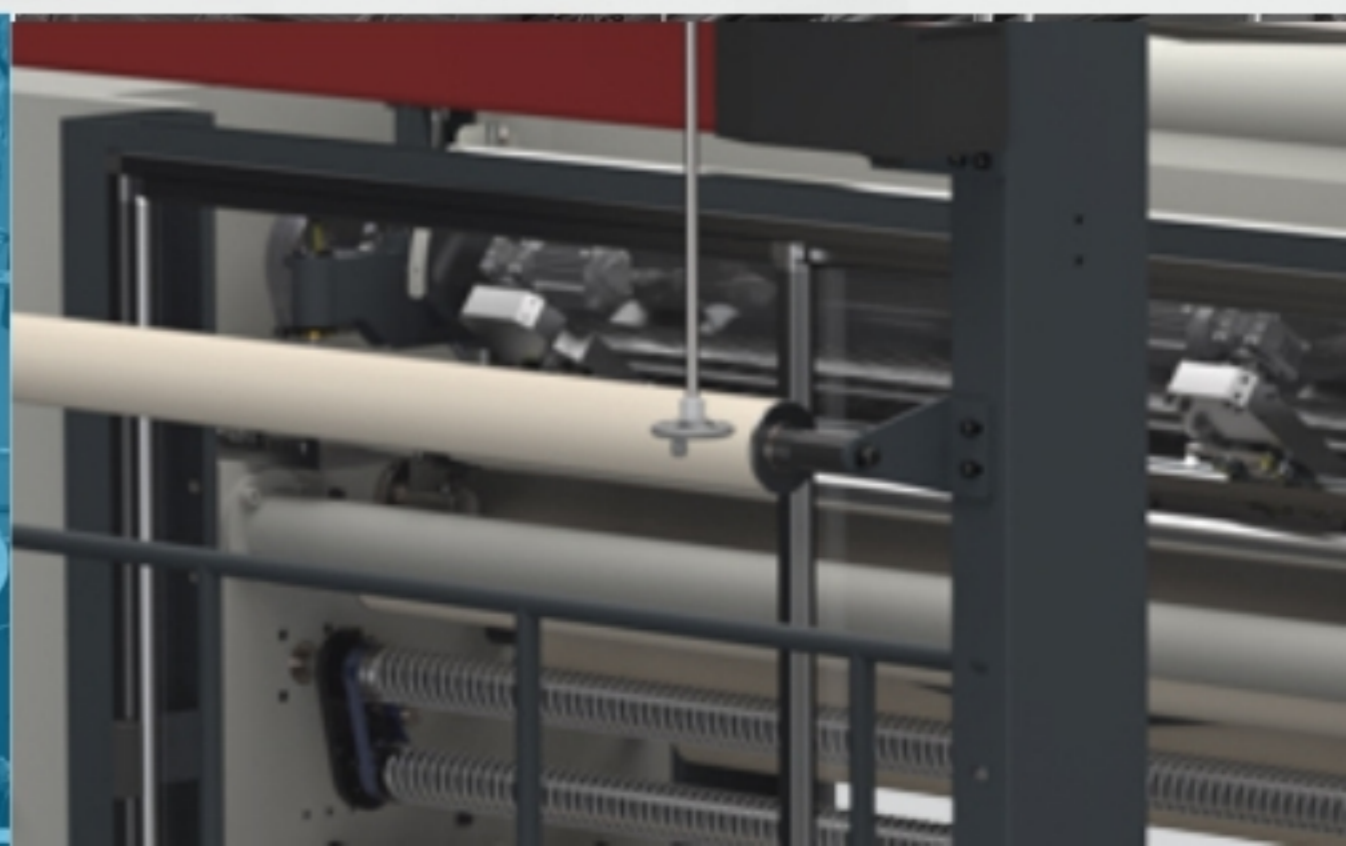

For more
information

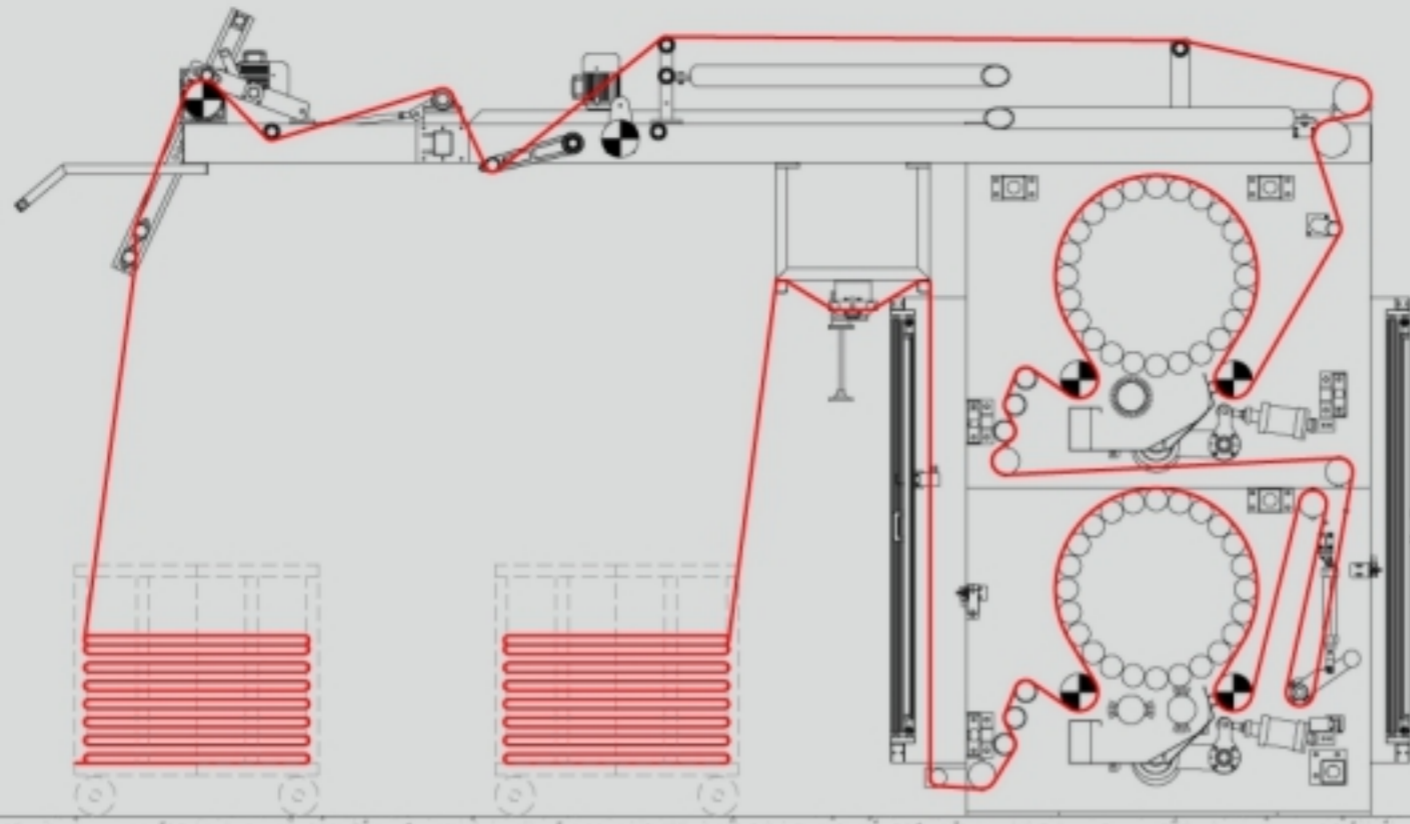

Combing machine for your fabrics!

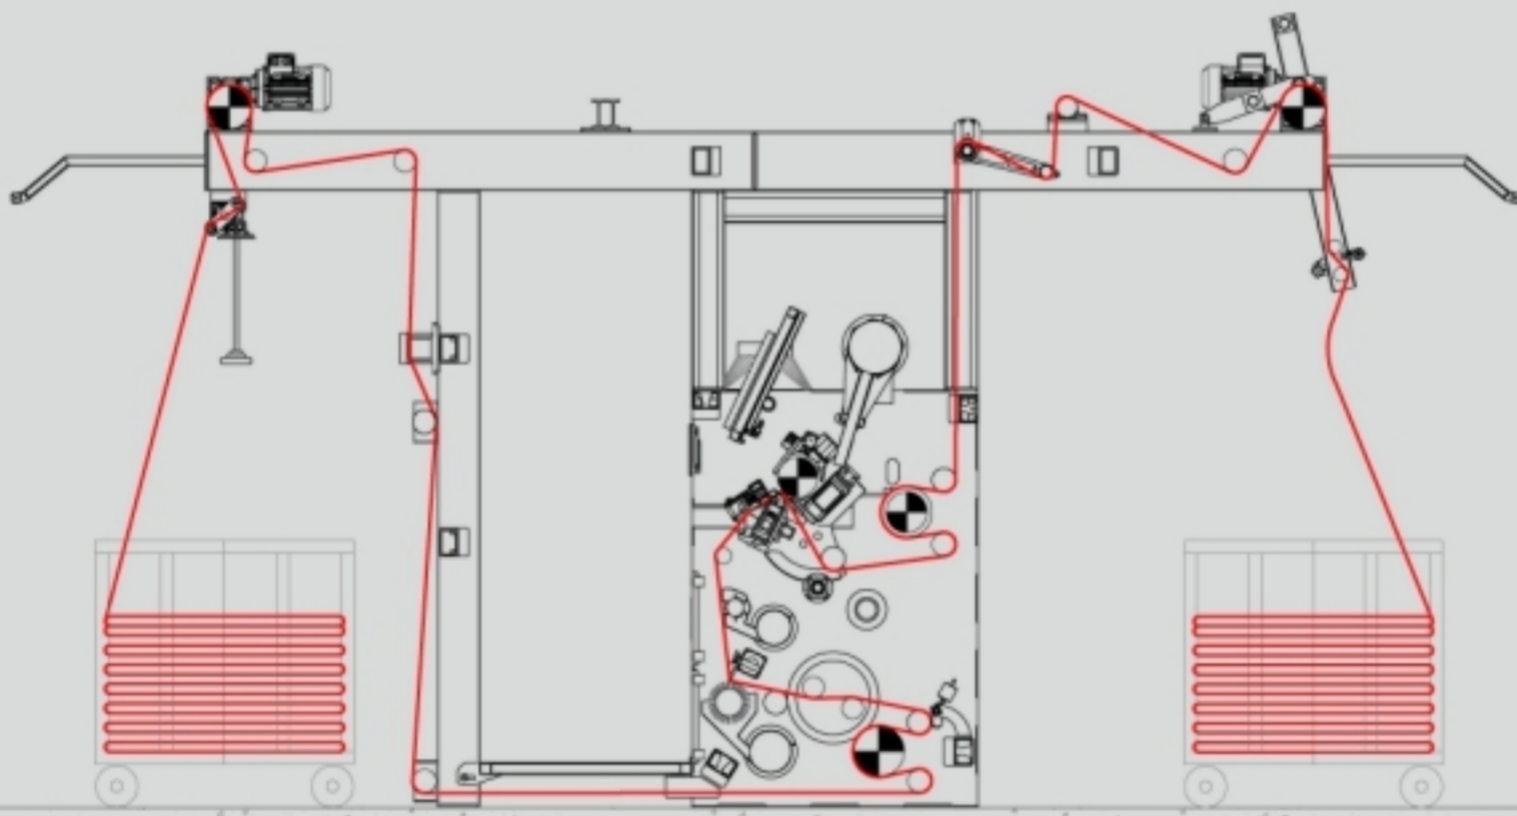

Drum tension control from 4 different points with inverter controlled driving rollers
Both for wellsoft and polar fleece fabrics.

- Can be used as a single drum raising machine.

BRUSHING FOR WOVEN

For more
information

Sueding effects for woven fabrics!

“MELISA”, which is produced with the experience of Memnun Machine in Brushing, can satisfy hard-to-appreciate customers.

It can brush especially woven, thick and thin fabrics and gives excellent results.

BRUSHING FOR WOVEN & KNITTED

For more
information

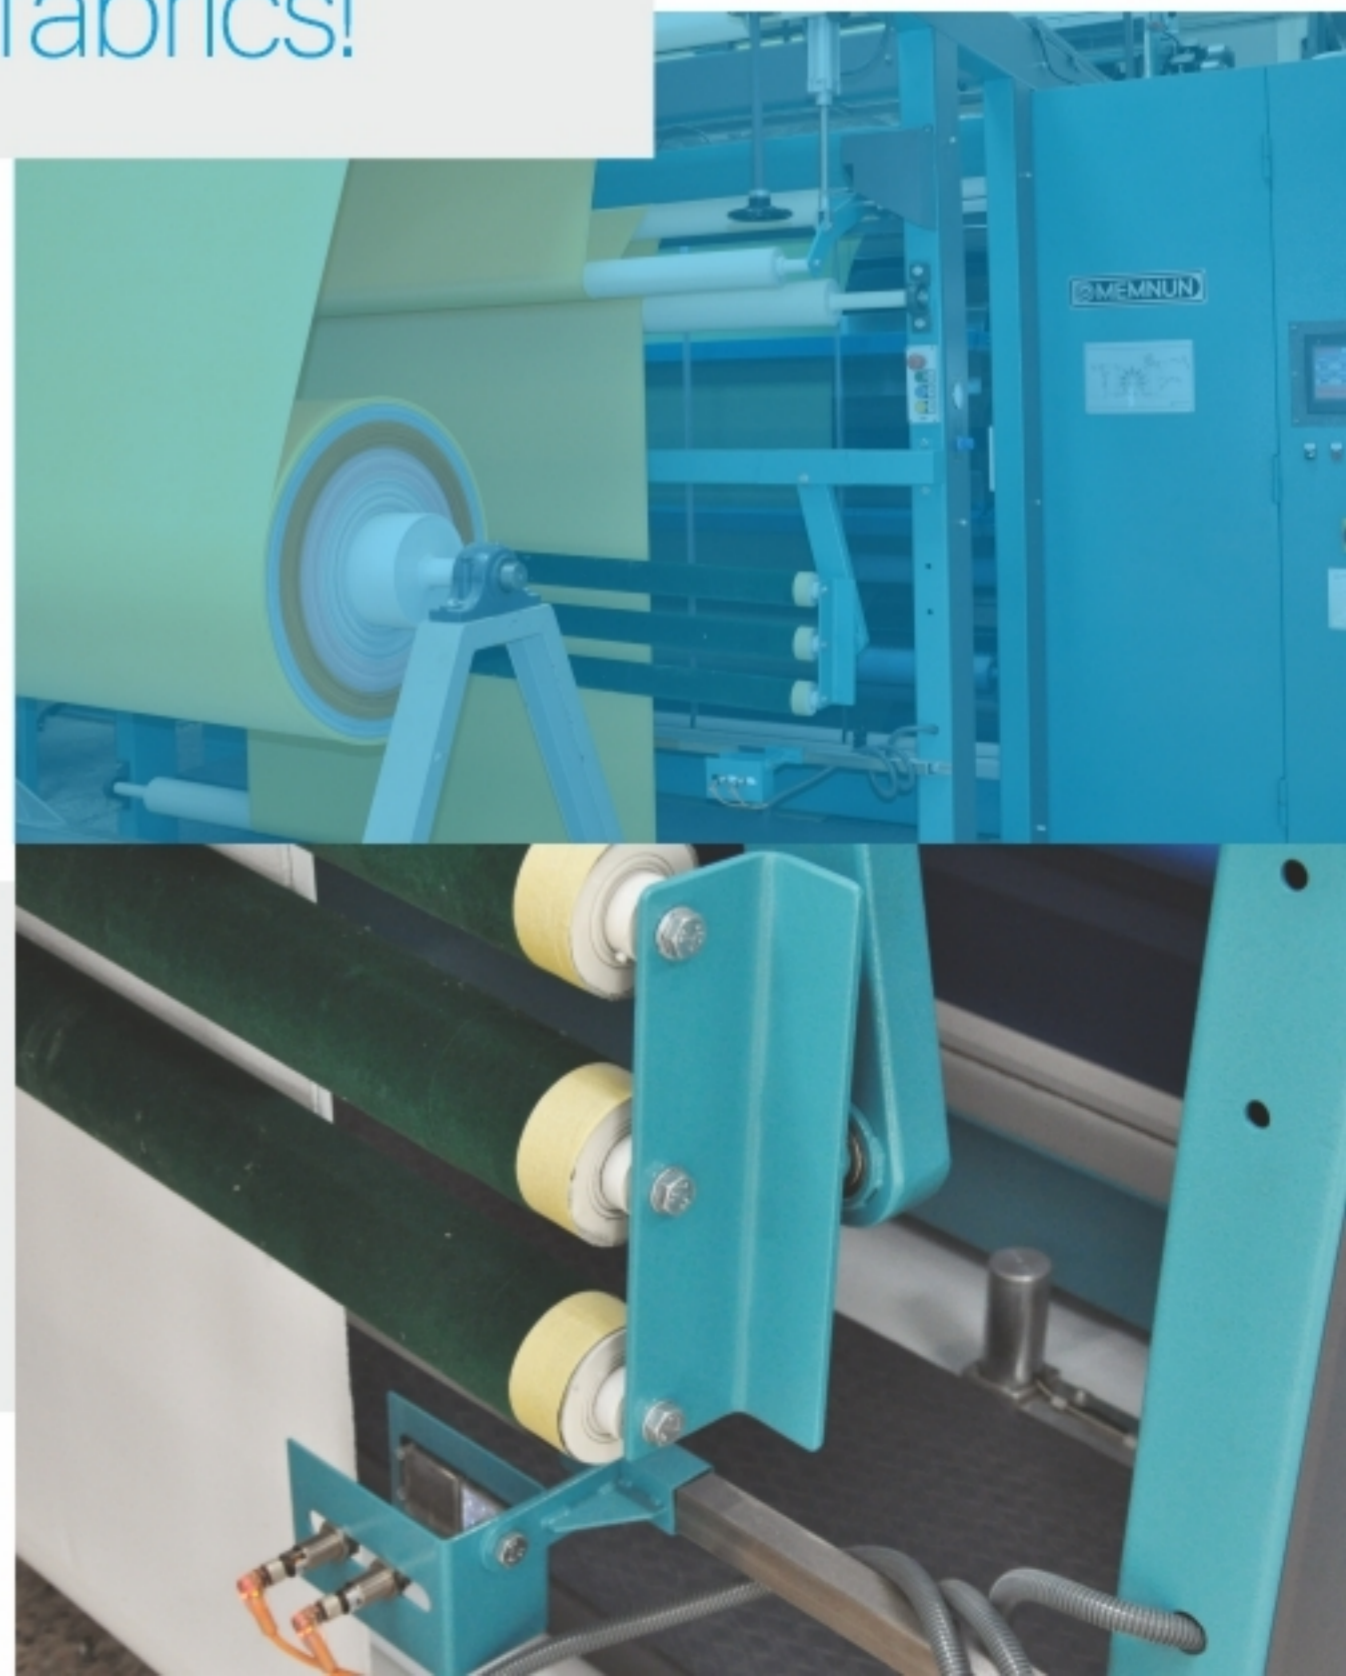

Brush effect for knitted and woven fabrics!

New generation "ALISA" Brush Sueding Machine provides to work with CARBON BRUSH or CERAMIC BRUSH.

Thus it is possible to have many different kinds of effects with multiple combinations.

COMBINATIONS_

- Carbon Brush
- Ceramic Brush

SUEDING & EMERIZING

For more
information

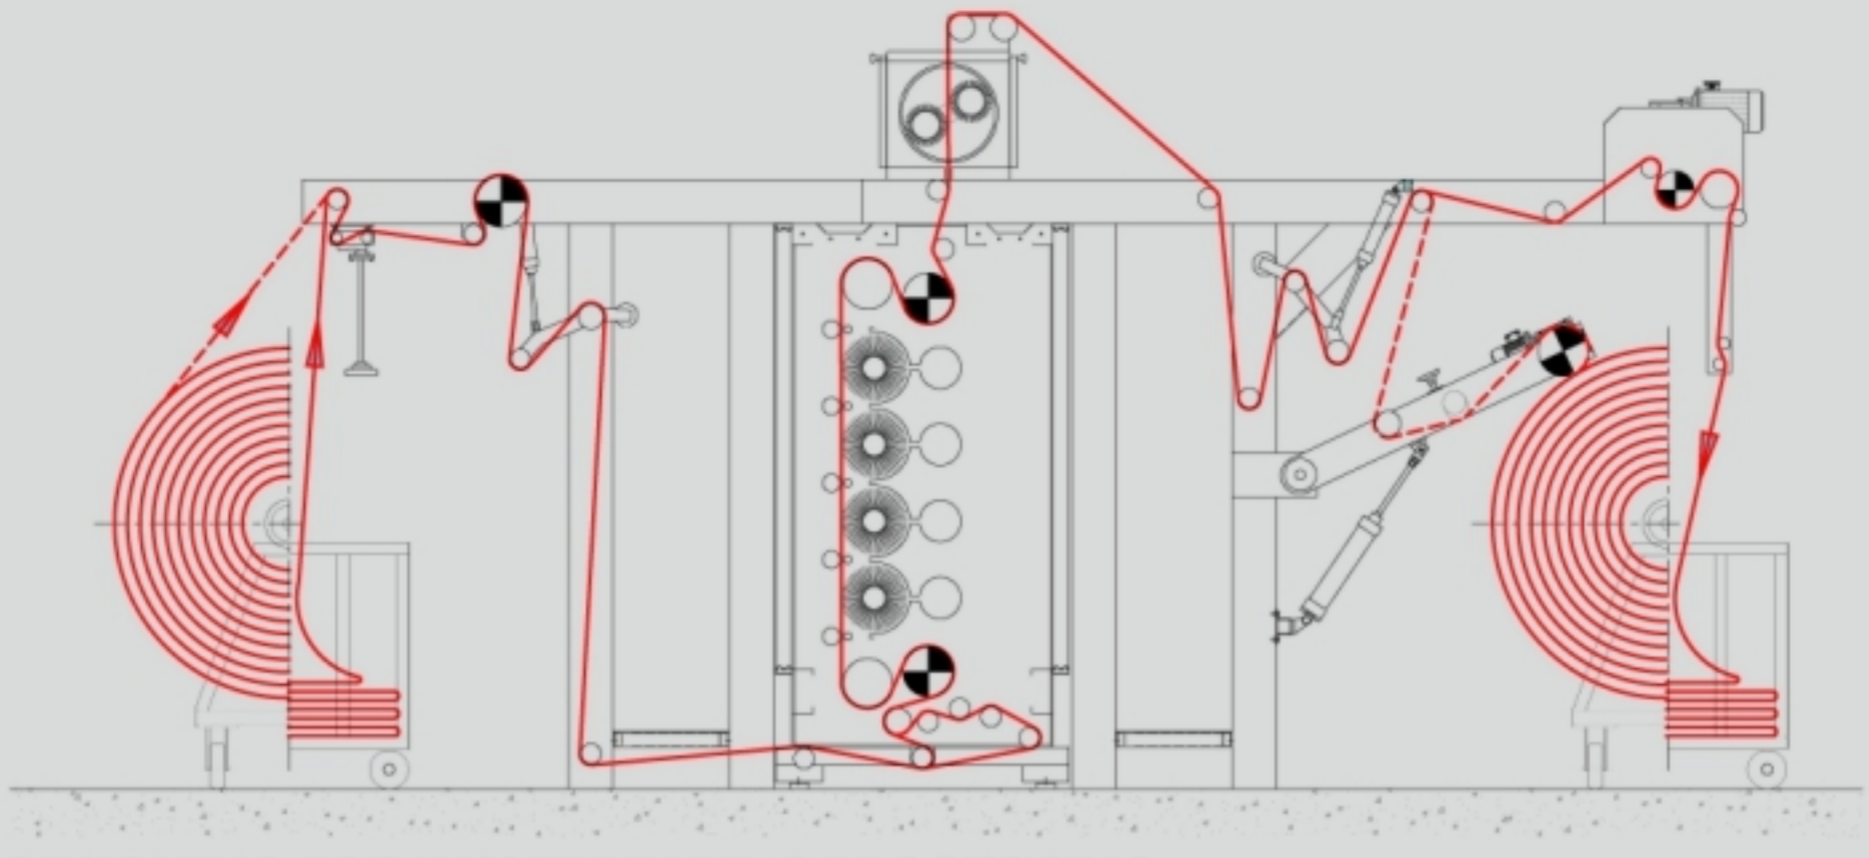

Add value on your fabrics with perfect touch and effects!

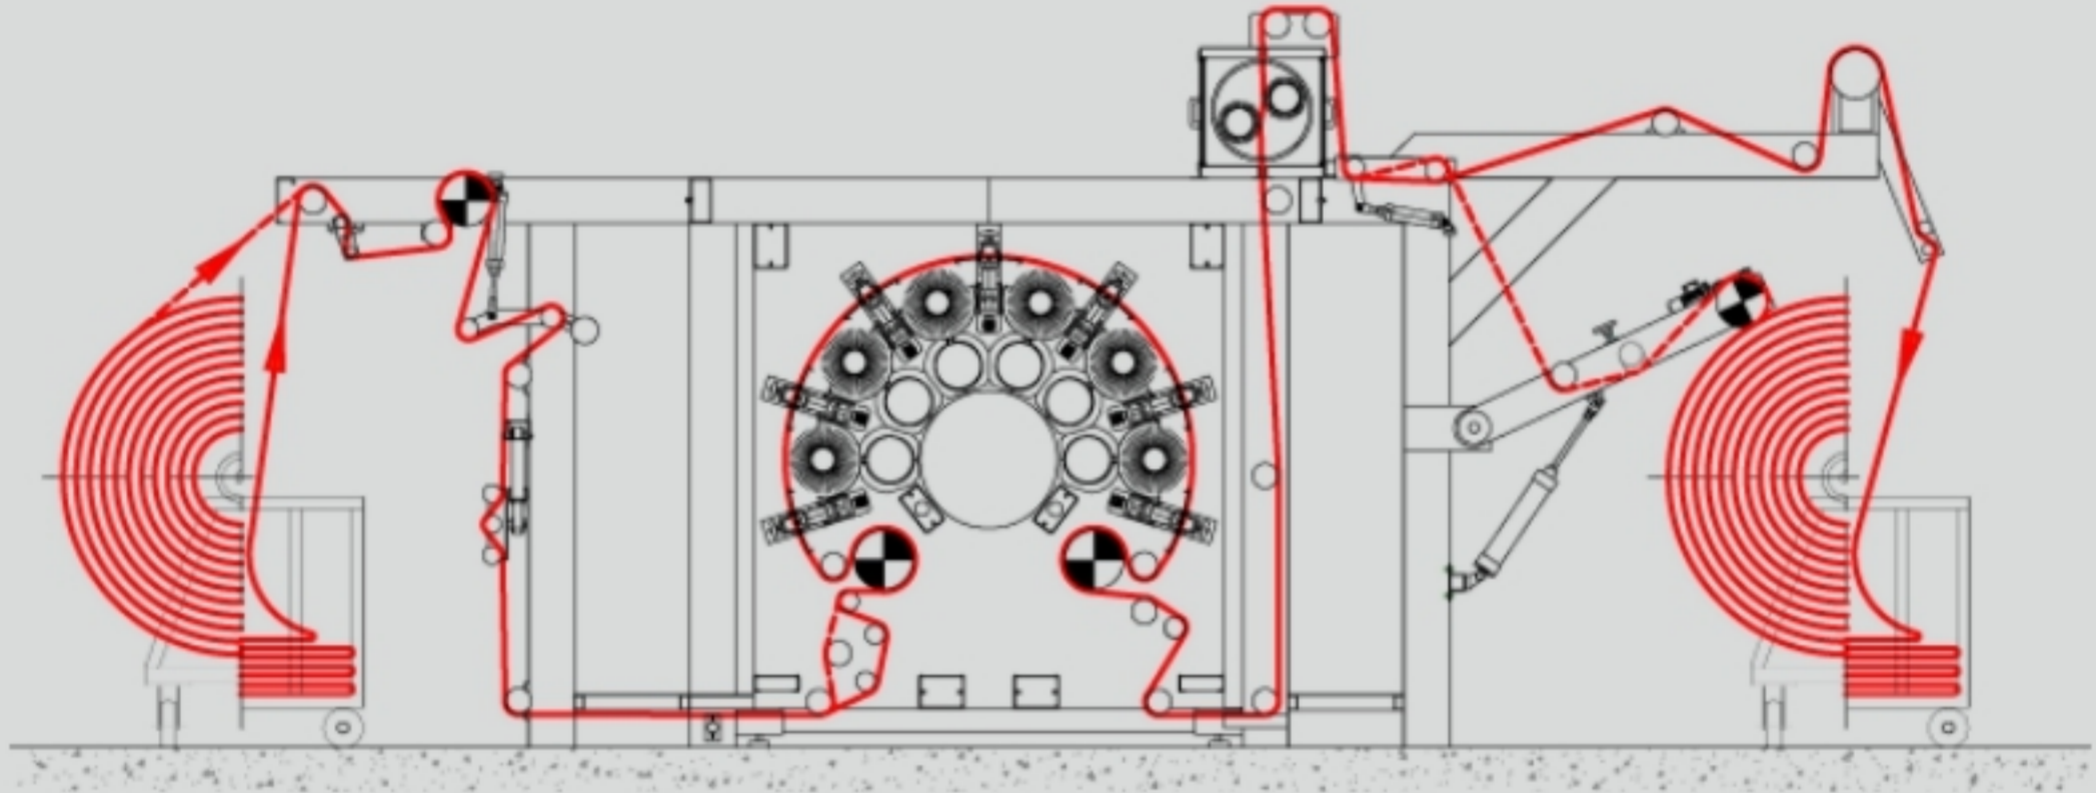

It is able to satisfy hard-to-please customers with the experience of Memnun Machine on Sueding.

Especially for Home Textile manufacturers, it has a voice in the sector with the results it obtained in the Horizontal Sueding Machine in upholstery and drapery fabrics.
