

TEXTILE MACHINE MAINTENANCE

GREASIL 500-MULTIGREASE

MULTIPURPOSE ASSEMBLY GREASE

- Ideal for all friction points with high loads at low sliding speed, pins, splined shafts - bars, gears, ball bearings, rubbing plates mechanical movements.
- It helps assembly and disassembly
- Excellent lubrication in the presence of vibrations and oscillating motions
- Lithium based / water resistant
- It does not drip

GBM - MOB LUBE

GREASE WITH MOLYBDENUM DISULFIDE

- Lubricant to reduce friction and wear.
- Indicated for the lubrication of the width screw and steamer of stenter machines.
- For all mechanical parts and ball bearings.
- Repellent against rust, dust and dirt.
- It does not drip
- Resistant up to 700°C

MOLISIL

DRY LUBRICANT WITH MOLYBDENUM DISULFIDE

- Resistant to high temperatures
- good adhesion to metal surfaces and high load-carrying capacity
- for the lubrication of width screw spindles in textile stenter.
- assembly aid for bolts, bearings, screw connections and running aid for plain bearings and sliding points.

LUBRITEF

DRY LUBRICANT WITH P.T.F.E.

- Suitable for high frictions
- It resists up to 300°C
- It does not grease
- Antiadhesive agent
- To lubricate: joints, oven rails, clasps, hinges, precision mechanisms

LUBEFIL

STRINGY GREASE SPRAY

- For gears, chains, boats, ball bearings, wire ropes
- It does not stain
- Colourless
- Very sticky
- Water repellent
- It resists up to 180°C

TEXTILE MACHINE MAINTENANCE

SILICONE SPRAY

SLIDING AGENT , ANTISTATIC, ANTIADHESIVE

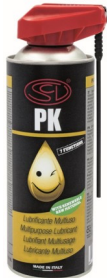

- To be applied in case of sliding friction of the fabric on the machines parts
- To keep rotating nozzles clean, thus reducing machine downtime.
- It prevents the formation of softening residues and finishing agents; cleaning work is easier and faster.
- Treated needle bars and clothespins do not contaminate the fabric
- Solvents free

PK

MULTIUSE ANTIRUST SPRAY

- Unblock for nuts, screws bolts
- Lubricant for mechanisms in movement,
- Anti-rust
- Deoxidizer for electric contacts
- Water repellent
- Antifreeze
- Detergent and degreaser.
- GREEN BASE, Renewable raw material

PULITEX

MULTI PURPOSE CLEANER AND LUBRICANT

- CLEANER :It removes oil, grease, adhesives.
- LUBRICANT: It lubricates needles, drive bars, spare parts
- PROTECTIVE: It prevents the needle from rusting
- Suitable for Knitting machines, it increase the life of the needles
- Cleans and lubricates the latch
- reduces the Radial and Axial Latch play
- It avoids needle marks on the fabric

TRONICSIL

ELECTRIC CONTACT CLEANER

- To eliminate oil, incrustations, dirt, etc...
- High evaporation
- It does not leave residuals

SUPER CLEANER

MULTIPURPOSE CLEANER

- To clean textile machines, tables, needles, plastic and metal parts
- To eliminate: Oil, grease, incrustations, dirt
- It does not leave oily residues
- Suitable for metal, plastic, steel, aluminium, etc...
- Treated surfaces will remain shining
- Not toxic - Not flammable - Biodegradable
